

Where every sound begins a story

About Us

At PodSphere, we believe that reading is the doorway to a child's imagination, confidence, and lifelong learning. Our vision is to inspire children to proudly say: "**I CAN READ!**" by building strong phonics foundations that make language joyful, meaningful and accessible.

Through thoughtfully designed, story-driven phonics experiences, we transform early reading into an adventure.

Our programs combine playful learning, structured phonics instruction and interactive tools to spark curiosity and nurture confidence.

PodSphere was founded by Ms. Shailee Shah and Ms. Vruti Kansara with a commitment to making early literacy engaging, effective and accessible for children everywhere.
